Work Experience

Freelancer-fullstack

April 2025 until now (1 year and 4 months)

Remote

Iran Tehran

I have worked as a freelance fullstack developer on web-based projects in Iran focusing on building scalable and user-friendly applications. I have experience collaborating with international teams and handling end-to-end project development from initial concept to deployment.

front-end

March 2024 until February 2025 (11 months)

avinmedia

Iran Tehran

I worked in a team-based environment, focusing on multiple IT projects while utilizing Jira for task management. My responsibilities included planning, developing, and implementing new features, fixing bugs, and improving the user experience. Through effective task management and close collaboration with other teams, I contributed to the successful delivery of projects. Additionally, I led the complete implementation of a front-end project using Next.js and developed a PWA application optimized for iOS devices.

front-end developer

March 2022 until June 2024 (2 years and 3 months)

HamdaSystem

Iran Babol

Completed the refactoring of the 'Hamda' software project (a tax support platform for doctors and pharmacists) using Material UI, implemented React Query for enhanced data management and performance optimization, documented all components with Storybook, restructured the Store architecture, and fully developed the exam panel for both admin and jobseeker sections.

Education

Bachelor: Software engineering

2019 - 2022

About Me

I am a motivated Front-End Developer with nearly three years of experience in the field. My expertise lies in building scalable, maintainable, and user-friendly applications. I highly value clean code practices and am constantly seeking to learn new technologies and improve my skills. I am looking for opportunities where I can grow alongside professional teams and contribute meaningfully to the success of projects.
